

CDC Resources for COVID-19 Vaccination and Underlying Medical Conditions

The Center for Disease Control and Prevention's High Risk Medical Conditions sub-team – part of the Disproportionately Affected Adult Populations (DAAP) Team of the Vaccine Task Force – has the goal of helping to address COVID-19 vaccine implementation in [groups with underlying medical conditions at higher risk for severe illness from COVID-19](#), which includes many disabled people. They have shared the following COVID-19 resources:

- [COVID-19 Vaccination Toolkits](#) – This webpage contains toolkits for audience-specific toolkits for healthcare teams and community administrators, including community-based organizations. The toolkits contain introduction letters, frequently asked questions, slide decks, fact sheets, and more. These tools can be adapted to your organization's scope of work and audience.
- [COVID-19 Toolkit for Older Adults & People at Higher Risk](#) – This webpage contains COVID-19 vaccine and disease guidance and tools to help older adults and people at higher risk and those who serve or care for them. This toolkit contains FAQs, checklists, factsheets, posters, social media, PSAs, and more.
- [COVID-19 Vaccine](#) – Recently updated COVID-19 vaccine landing page for consumers and clinicians with materials available in English, Spanish, Chinese, Vietnamese, and Korean.

As a reminder, you can also find updates, information, resources and past alerts about COVID-19 at [ncil.org/COVID-19](https://www.ncil.org/COVID-19).
